ANAKEEN PLATFORM
THE LOW-CODE SOLUTION FOR THE CREATION
OF SOPHISTICATED BUSINESS APPS

The Anakeen platform contains all the mechanisms required to create an application.
With the addition of a relatively small amount of code, the platform generates all the ingredients needed to design a bespoke enterprise application: data structure, a workflow engine, a dynamic access matrix and a graphic user interface ready to be personalised. This tool is agile, reliable, efficient, cost-effective and flexible.

| Workflow Package | User Interface Package | Security Package | Transformation Package |

ANAKEEN PLATFORM
Smart Data Engine
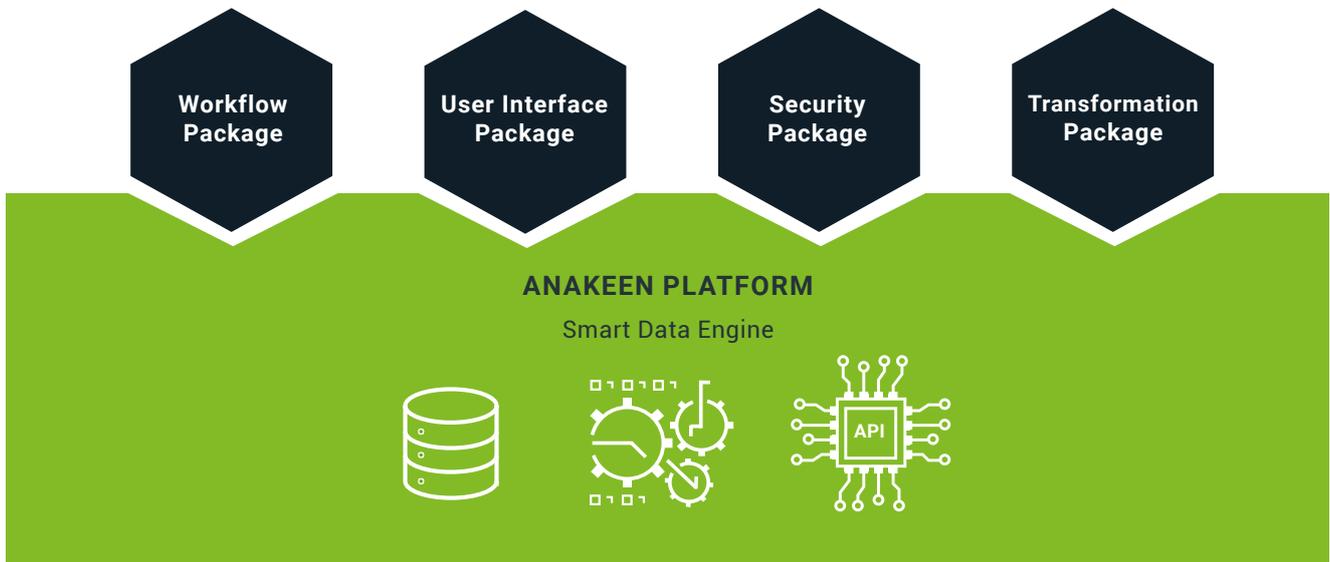

WORKFLOW PACKAGE

Workflow Package

With the Workflow Package, **digitalize business processes** to allow users to focus on their core business activity. Thanks to the document's lifecycle, the task management and the process automation, the whole business process is accelerated and secured.

SECURITY PACKAGE

Security Package

1 0
0 1
1 0
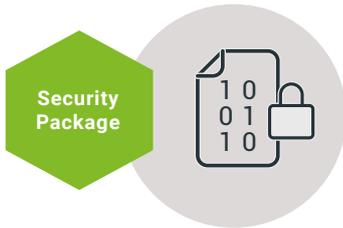

With the Security Package, dynamic rights allows to **adjust to the best the data's confidentiality to the stage of the workflow.** The traceability of any action is complete and each data will be seen by the right person exclusively.

TRANSFORMATION PACKAGE

Transformation Package

PDF DOC
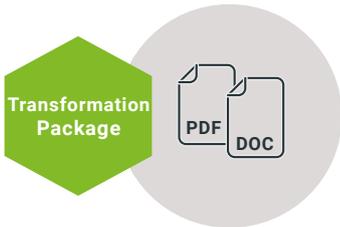

With the Transformation Package, your data can be transformed to documents DOCX, XLSX, CSV or PDF. **Apply a template to save some time at the end of a workflow.**

A SOLUTION BORN TO MEET
ALL YOUR REQUIREMENTS

AGILITY

Anakeen Platform provides 80% of an application's functionalities. Development time is reduced fourfold compared to a framework. You maintain the momentum of a project primed for success, and reduce the likelihood of a tunnel effect.

RELIABILITY

With Anakeen Platform there are 20 times fewer lines of code compared to a framework. The risk of bugs is therefore also reduced by 20 and frictions during the acceptance phase are drastically reduced.

COST-EFFECTIVE

By choosing Anakeen Platform, you allocate your budget to something fundamental. You reduce the number of anomalies and thereby decrease the cost of corrective maintenance and can develop your application continuously.

EFFICIENCY

Anakeen Platform is designed for major new enterprise application projects. Over 100,000 people use it every day. We ensure the creation of a modern and efficient application.

FLEXIBILITY

Anakeen Platform was designed taking both business and technical constraints into account. It can be hosted on the Cloud (SaaS) or on premises, depending which option suits your company.
